

## MANAGEMENT, AUTOMATION AND TICKETING SOLUTION

TTS Consolidator is a solution that optimizes the consolidation/host agency business, by enabling consolidators/host agencies to offer ticketing autonomy to their non-IATA/independent agencies while providing financial control to the consolidator. No installation needed.

The screenshot displays the TTS Consolidator web application interface. At the top, there is a navigation bar with the TTS logo, a date/time display (25 MARCH 2014, 11:07:28), and a user profile dropdown. Below the navigation bar, there is a main content area with a header for 'Payment PNR 7NSHB8' and 'AVAILABLE CREDIT: 2,500.00'. The interface is divided into two main sections: 'Reservation' and 'Payment'. The 'Reservation' section shows 'Reservation created/updated with PNR 7NSHB8'. The 'Payment' section has radio buttons for 'Approved credit' and 'Credit Card', with a 'Card Type' dropdown menu set to 'AX'. Below this, there are input fields for 'Card Owner', 'Card Number', and 'Expiration Date' (set to 01/2014). At the bottom of the interface, there are several action buttons: 'Close PNR', 'Issue Ticket', 'Continue', 'Open PNR', and 'Create PNR'. The footer contains copyright information and social media icons.

- ✓ Minimizes consolidator/host agency's financial risk
- ✓ Ensures each operation is done on the respective agency PCC
- ✓ Reduces the need of GDS specialized human resources
- ✓ It offers:
  - Consolidation/host agency business growth
  - Risk free ticketing autonomy
  - Cost effectiveness
