## **Travelport Mobile Agent Price Table for Nov/2017 onwards**

Version 1.1  
August 2017

## Introduction

Under the global agreement with Travelport, TTS will invoice the agencies for the cost of Travelport Mobile Agent licenses.

The pricing is defined in Euros, British Pounds, US Dollars and Canadian Dollars, and will be updated whenever is needed.

Invoicing will be done yearly, at the beginning of the service period.

Starting November 1<sup>st</sup> 2017, prices have been adjusted to reflect the current exchange rates. CAD and GBP price will go low while USD will go up. To minimize the negative impact of the raise in USD, we will be including the Email Templates add-on for free for all users.

## Price Table
