

FEELING THAT YOUR CONSOLIDATION BUSINESS IS TIED?

TICKETING AUTONOMY TO YOUR SUB-AGENCIES !

TTS Consolidator is a web-based solution designed to optimize the consolidation business. By providing full ticketing autonomy to non-IATA agencies, and automation and financial control to the consolidator, it adds value to both parties. TTS Consolidator respects all the established business rules by ensuring each operation is done on the respective agency identifier.

Work as suits you better

TTS Consolidator was designed for an easy and intuitive usage in any common web browser. Multi-language (English, Spanish and Portuguese), TTS Consolidator is the solution for small, medium and large consolidators and supports **Apollo, Galileo** and **Worldspan**.

Optimizing consolidation business

Automation lets both parties, consolidators and non-IATA agencies focus on business instead of time consuming processes

Large number of built-in functionalities, resulting in exceptional flexibility and work speed

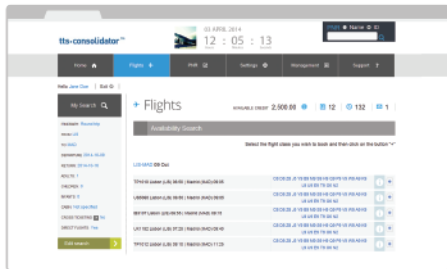

Cost effectiveness and better service to all consolidated agencies

24/7 accessibility lets users work when and how suits them best

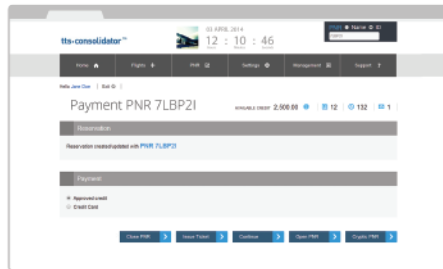

Flexible Flight Search

Supports price and availability search which allows travel agents to better serve price and schedule oriented clients.

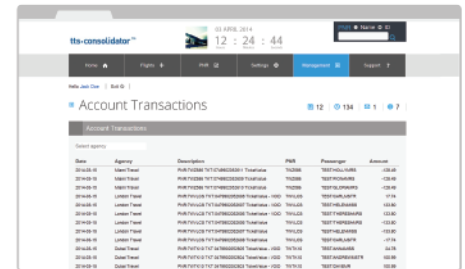

Risk Free Ticketing Autonomy

Non-IATA agency can issue tickets in a totally autonomous way. Tickets can be issued against approved credit or using a credit card enabling risk management per sub-agency.

Activity Tracking

Consolidator users can easily check their sub-agencies balance and transactions history or increase their available credit.

TALK TO US TO MAKE YOUR BUSINESS GROW!

“The TTS Consolidator solution allows the non-IATA travel agencies to give their customers the availability and speed at least equal to their competitors that are IATA. TTS Consolidator is a turn of the page in the relationship between the non-IATA agency and the IATA consolidator because allows autonomy to issue tickets 24 hours during 365 days a year, it's accessible from anywhere with internet connection and quite intuitive because doesn't require special training.
